SOME VEGETABLE CURES.

Onions Furnish the Most Substantial Cure for Nervous Prostration and All Other Nerve Disorders.

Water cress is an excellent blood purifier.

Lettuce has a soothing effect on the nerves and is excellent for sufferers from insomnia.

Tomatoes are good for a torpid liver, but should be avoided by gouty people.

Spinach has great aperient qualities and is far better than medicine for sufferers from constipation. It is also excellent for kidney troubles.

Beet root is fattening and good for people who want to put on flesh. So are potatoes.

Parsnips possess the same virtues as sarsaparilla.

Apples, carrots and Brazil nuts are excellent for sufferers from constipation.

Apples and carrots also have a beneficial effect on gouty persons.

Raw carrots cure indigestion. When cooked they will cure asthma.

Celery contains sulphur and helps to ward off rheumatism. It is also a nerve tonic.

Dates are exceedingly nourishing and laxative.

The juice of grapes is laxative, but the skin and seeds are likely to cause constipation.

Bananas are beneficial to sufferers from chest complaints.

Onions furnish the most substantial cure for nervous prostration and all other nerve disorders; they have a soothing effect on consumptives, and are excellent for colds, coughs and scurvy. They have been known to cure la grippe and pneumonia. Onions also are preventatives of insomnia.

Cranberries serve as cures for malaria and erysipelas.

Parsley is an excellent aid to digestion; when eaten with a hearty meal it will prevent dyspepsia.

Strawberries and onions produce a creamy whiteness to the complexion.

Asparagus stimulates the kidneys, and by the exercise afforded them, strengthens them and thus becomes one of the most important kidney cures. Asparagus also causes perspiration, thereby cleansing the system of impurities.

Cabbage helps to purify the blood.

Dr. Q. A. R. Holton mentions a cure effected by permitting the patient, who was suffering from bilious colitis, to drink buttermilk when he craved it.—National Food Magazine.

WHAT TIME IS IT?

No Need to Ask—Just Look at Crane's New Chronometer and See for Yourself.

H. T. Crane has just put in his show window for the benefit of the general public a very fine ship chronometer, manufactured by the Waltham Watch company. The chronometer is hung in a case in which it is perfectly balanced and no change of position in the least affects its time keeping qualities. So accurate is its adjustment that it is guaranteed to vary not more than one and a half seconds in a week's time. It will be kept in the window where it can be seen at a glance just what the correct time is. It is very liable to put the reputation of the court house clock to the bad.

One of the enjoyable affairs given at the Elks' was the Easter dance Wednesday night. The music was furnished by the Lawler orchestra. The out-of-town guests were Mrs. Branger of Waterloo, Ia., Mr. and Mrs. H. H. McMaster of Hopkins and Mrs. J. I. Roberts of St. Joseph.

Hum Drums Surprised Her.

Miss Frances Keeler, who has been spending the Easter vacation with her mother, Mrs. Mary Keeler, and family, was surprised by the members of the Hum Drum club, of which she is a member, Tuesday night. The club learned that the day was her birthday anniversary and concluded it should not pass unnoticed. A delightful evening was spent with music and games.

Penelope Club Met.

The Penelope club met Wednesday afternoon with Mrs. N. F. Hopper, on West Second street. There was not a large attendance of the members, because some could not resist the first party of the season at the Elks club. A splendid afternoon was spent, however, in an informal social way. Light refreshments were served. The members present were Mrs. Hopper, Mrs. John Herron, Mrs. John Price, Mrs. Anna Frankum, Mrs. J. D. Ford, Mrs. LeRoy Johnson, Mrs. Frank Bolin, Mrs. G. A. VanSteenbergh, Mrs. J. F. Cook and Miss Dessie Gault.

Shakespeareans With Mrs. Craig.

The Shakespearean department of the Twentieth Century club met at the home of Mrs. Anderson Craig Tuesday afternoon. Mrs. O. C. Hanna gave a general outline of the third act of "The Tempest," and roll call was responded to by quotations from the same act. The symposium of five miscellaneous questions was conducted by Mrs. M. G. Tate and current events were given by Mrs. Ferdinand Townsend. The word drill was given by Mrs. D. J. Thomas, and parliamentary law presented by Mrs. E. G. Orear. The department then convened in open session, when the hostess served a delicious white luncheon. Toasts followed, the hostess introducing each club member with a pun on her name, and all responded handsomely. There were nine visitors, Mrs. J. R. Brink, Mrs. Gallatin Craig, Mrs. G. L. Willey, Mrs. N. C. Covey, Mrs. George P. Wright, Mrs. F. G. Shoemaker, Mrs. R. L. McDougal, Miss Eva Rittenour and Mrs. M. J. Honnold. The next meeting of the Shakespeareans will be held with Mrs. Ferdinand Townsend, Tuesday, April 30.

First Party After Lent.

The party given at the Elks club Wednesday afternoon by Mrs. Conrad Yehle and her sisters, Miss Lenore Schumacher and Miss Rose Schumacher, proved a delightful opening for the spring social season, and the sight of the beautifully dressed company on its way to and from the party renewed the conviction in the minds of many who saw them that Maryville has the loveliest maids and matrons in the country. The guests were greeted at the door by Mrs. Luther Forsyth, and received by their hostesses in the parlors. Miss Della Grems directed them to the tea rooms, where Mrs. F. P. Robinson, assisted by Miss Esther Shoemaker, Miss Cecil Benight, Miss Mae Corwin, Miss Kittle Grems and Miss Katharine Yehle served punch. The color scheme was lavender and white. Lavender candles in crystal holders lighted the table. The table covering was of cluny lace and over it were sprays of pressed maiden hair ferns from Green Bay, Wis., which, with lavender and white sweet peas, made an exquisite table, with its cut glass and china service in the same colors. Miss Anna Walker of Burlington Junction directed the guests to the ball room, where they were seated at the tables for cards and dominoes by Mrs. S. G. Gillam and Miss Teresa Yehle. The game prize at cards was won by Miss Mabel Todd, and the domino game prize by Mrs. W. A. Tindall.

While a four-course luncheon was served, all in lavender and white, a musical program was given by Miss Besse Scott, Miss Myrtle Sheldon and Miss Hilda Lahr.

Miss Scott's songs were "Rose in the Bud," by Dorothy Foster, and "Love, I Have Won and Held You," by Landon Ronald. Miss Sheldon sang D'Hardelet's "Because," and a Scotch song, "My Ain Folks." Miss Lahr gave several fine piano numbers.

The out-of-town guests were Mrs. Jesse I. Roberts of St. Joseph, who

The Nerve of Her!

Not long ago a woman reporter was busily engaged in scribbling her "copy" on a street car on her way to the office from the scene of her work. She was listing a number of the people who had been present when she was surprised to have a perfect stranger sitting in the seat with her tap her on the shoulder, beg her pardon, and tell her that one of the names she was writing was misspelled.

"I have often found people reading over my shoulder in the street car," the reporter said in telling of it, "but that was the first one who has had the impudence to comment to me upon what she read."

Delicacy.

Once there was a man who thought it was foolish to advertise. He opened a shop in a side street and filled it with first class goods, intending to let them speak for themselves. After he had waited for several days a customer entered and paid 60 cents for an article that he happened to need. The man who did not believe in advertising expected the thing he had sold to prove so satisfactory that the purchaser would return for more things that he might wish to purchase. But the customer did not return. One day, many months after his purchase had been made, he happened to be passing through the street in which the little shop was located. A thin, haggard person stumbled out of the door of the shop and stopped him.

"How is it," asked the man who did not believe in advertising, "that you have never come back to buy any of my wares? Wasn't the thing I sold you worth the price you paid for it?" "I don't know," replied the other man, "may be it was; but I somehow got the idea that you hated to part with your goods and I didn't want to give you pain."

This teaches us that there may be delicacy on both sides.

AMERICAN WAS SHOT BY REBELS

Thomas Fountain Was Gun Captain Under Villa at Parral.

WAS FIRED UPON FROM BEHIND

Consul Letcher at Chihuahua Sent Gen. Salazar Appeal From Washington to Stay Execution, Without Avail.

El Paso, Tex., April 11.—An American newspaper man just returned from Parral with 184 American and other foreign refugees brought news of the execution of Thomas Fountain of Las Cruces, N. M., by the rebels. Fountain was captain of a federal gun under Gen. Pancho Villa. When Villa retreated last Thursday night Fountain removed certain parts of the piece and concealed himself in a private residence.

The American was driven by thirst and hunger to reveal his presence Sunday after 72 hours of self imposed torture.

He was armed with a revolver, but made no resistance. Monday he was compelled to show the rebels where he had secreted the missing parts of his rapid firer, was tried by court-martial and condemned to death, apparently for having disabled the gun.

American Consul Letcher at Chihuahua sent to Gen. Salazar what is believed to have been an appeal from Washington that his life be spared. In delivering the missive to a messenger the consul remarked: "That is the last resort."

Killed Under "Law of Flight." In Mexico they have recourse to what is known as the "law of flight" under which a prisoner who has been condemned is allowed his freedom within certain limits. The prisoner knows that his fate is sealed. Even if he does not walk a step, from some unexpected quarter the fatal bullet will come, and the report will be made that he was shot while "in flight."

It was thus in Fountain's case. When his body was brought in it contained four bullet wounds, made by shots fired from behind.

Seized American Arms. Washington, April 11.—Anxiety was aroused in the state department by dispatches from Mexico that the arms sent for defense of Americans were being confiscated and, that rioting and plundering had suddenly broken out all along the state line.

As guns of almost any make are selling in Mexico at \$100 apiece, it is feared the whole consignment of guns may be taken from the trains by rebels.

KEARNEY'S BODY TO ARLINGTON

Remains of Civil War General Removed From Family Vault for Reinterment.

New York, April 11.—The remains of Gen. Philip Kearney, famous soldier of the Civil war, lie in state today in the New York city hall. Tomorrow they will be taken to Washington for interment in the Arlington national cemetery, where a monument will be erected through a \$10,000 appropriation of the New Jersey legislature.

The bones of the hero were removed this morning from the family vault in Trinity churchyard and the old casket was encased in a new one. The funeral service was read by Rev. Dr. Manning, rector of Trinity, and the casket was then placed on a caisson and, escorted by detachments of infantry and cavalry, was taken to the city hall. There Gen. Daniel Sickles, the only surviving division commander of the war, delivered an oration. General Kearney was killed while reconnoitering within the Confederate lines near Chantilly, Va., on September 1, 1862.

BOY SCOUTS MAKING TROUBLE

LEADERS FIND IT NECESSARY TO PROHIBIT FIREARMS.

Fatal Shooting of New York Boy Shows Danger of Movement so Popular Among Youth.

New York, April 11.—The Boy Scouts of America must not carry firearms and any boy in a scout uniform who carries a revolver or a rifle is disobeying the instructions of the leaders of that organization. James E. West, chief scout executive of the Boy Scouts of America, said that he has been authorized by the executive board of his organization to take such steps as may be necessary to make it clear to the public that the real scout movement is not military and is distinctly opposed to having the boys carry firearms.

For many months the scout leaders have been sending out word to the scoutmasters to avoid military drills and to use every measure possible to prevent the boys from carrying firearms. The popularity of the scout movement, however, has led many men and thousands of boys to imitate the boy Scouts of America.

There are organizations of boy scouts who do carry arms and the fatal shooting of Henry Luckhardt, 9 years, old, by Russell Maitland Jarvis, a boy scout 12 years old, in New York City recently, has convinced the leaders of the Boy Scouts of America that they have an important duty to make clear to the public and especially to parents that the Boy Scouts of America do not carry firearms.

PANAMA VOLCANO IS IN ERUPTION

Highest of Peaks Unexpectedly Burst Into Flame.

INDIAN VILLAGES SWEEP AWAY

Story of Disaster Brought by Steamer Captain—Thousands Killed Before They Had Chance to Escape

Mobile, Ala., April 11.—Thousands have been killed and whole Indian villages have been swept away by the eruption of Chiriqui Peak near Bocas del Toro, Panama, according to a story brought here by Capt. Olsvik of the United States steamer, Fort Morgan, which has just arrived.

Capt. Olsvik says the eruption occurred April 5, early in the morning, while the Fort Morgan was berthed near Bocas del Toro, and that he witnessed flames shooting from the peak. Reports of the large casualty list were brought from the immediate scene to Bocas del Toro by refugees who escaped the onrushing lava. He says he watched the eruption April 5 until he put to sea.

Even far out on the gulf Capt. Olsvik says he saw evidence of the disturbed elements. The sea was affected in many places and the air was filled with smoke and dust far out into the gulf.

Capt. Olsvik says inhabitants of Bocas del Toro were panic stricken, believing that place might be overrun with the lava that was belching forth from the peak.

Chiriqui peak, as far as is known, never has shown volcanic activity and the sudden bursting of fire and lava from the crest took inhabitants by surprise.

Story of Spectacle.

In describing the eruption Capt. Olsvik said:

"The Fort Morgan was berthed at the Almirante wharf, about 14 miles from Bocas del Toro, on the morning of April 5, loading bananas, when about 4 o'clock the eastern sky blazed forth and a great rumbling was heard. Looking in that direction, I saw great columns of fire shooting high.

"I learned before leaving that the third of a row of mountain peaks situated about a mile from us had burst into flames.

Vessel Caught in Current.

"Soon after the volcano was seen the Fort Morgan was caught by a great current and tore at her moorings. When we got into the open sea great rocks were sticking out of the water in places where before we had navigated the vessel."

Capt. Olsvik is well known in Gulf and Caribbean ports, having sailed in these waters many years.

STRIKE OF I. W. W. IS WEAKENING

Work Resumed on Various Sections of Canadian Northern Railway Under Police Guard.

Yale, B. C., April 11.—There is activity on various sections of the Canadian Northern grade north of Kamloops, but the great majority of the striking Industrial Workers of the World are still idling about the strike camps. Station men have returned to work where they can get along without outside assistance. The station man is a small contractor but he must pay the wage the larger contractor sets.

The provincial police have control of the situation and have 60 men scattered along the grade. The camps where work is going on are under guard.

AVIATORS ARE TAKING WARNING

Alarmed by Accidents, Both Lee Hammond and Miss Moisant Quit Dangerous Game.

Mineola, N. Y., April 11.—Lee Hammond, an aviator, has permanently quit the flying game at the request of his fiancée, Miss May Andrews, of this place, whom he met on the aviation field here. The marriage will take place next week and the couple will leave at once for Chicago, where Mr. Hammond has secured a position with a banking house.

Wichita Falls, Tex., April 11.—After an exhibition flight here, Miss Matilda Moisant, probably the most noted woman aviator in the country, announced her retirement from the flying game.

Woman on Long Walk.

New York, April 11.—Beginning a 1,000-mile walk to Chicago on a diet of raw food, Mrs. David Beach left the New York Globe office without breakfast, and expects to dispense with the morning meal on the whole trip and will eat nothing but raw food. EXCITED OVER PLATINUM FIND

Opening of Indian Land Brings News of Great Discovery.

MILL MACHINERY IS SHIPPED

Metal Twice as Valuable as Gold—Mining Operations Already Begun at Mountain Park, Oklahoma.

Guthrie, Ok., April 11.—With the opening at the land office here of the Navajo irrigation site of 60 sections of land near Mountain Park in southwestern Oklahoma came the announcement that platinum had been discovered within 12 miles of this land and active mining operations are now in progress there. This will be the last opening of land to settlement in Oklahoma. It was staked off by claimants March 11, but no filings were permitted until now.

The federal government intended to build an immense irrigation plant there. Later it was found not feasible. This is the only known platinum deposit in the United States. The ore assays \$56 platinum a ton, with traces also of gold and silver. Platinum is quoted at \$43 an ounce, twice as valuable as gold. Heretofore practically all the platinum used in this country is mined in the Ural mountains, Russia. Denver and Pueblo capitalists are erecting a mill near Mountain Park and shipping in the machinery to equip it. Miners who were here to file state that great excitement exists there and that a rush of prospectors is expected any day.

The Wichita mountain country adjoining is full of former Black Hill and Rocky Mountain prospectors now. The federal government has segregated 480 acres of land near Roosevelt. James D. Hutton, the first man to file, is secretary of the Oklahoma Mining congress and has just issued a call for the annual meeting to be held at Mountain Park on July 4, at which time a president and other officers will be elected.

The group, a gift from the men of the state, is composed of a seated woman, symbolic of the women of the confederacy, white close behind her are a winged angel and two children. The statue was three years in building and cost \$22,000. It was designed by F. W. Ruckstuhl of New York.

MOFFAT HEIRS TO GET LITTLE

WIDELY HERALDED ESTATE WILL NET BUT \$750,000.

Records Show Millionaire Railroad Builder Was Facing Financial Embarrassment.

Denver, April 11.—That David H. Moffat, Colorado pioneer, railroad builder, national banker and millionaire, was on the verge of acute financial embarrassment at the time of his death, is the startling revelation that has just been made public here.

It is reported that after the payment of debts the widely heralded Moffat estate has shrunk to \$750,000, which means that many bequests cannot be fulfilled, as they aggregate millions.

Claims have been filed against the Moffat estate aggregating \$4,506,566, whereupon Judge John R. Dixon removed the lid from the records touching the estate which have been suppressed for a year.

The largest claim presented was by the Equitable Trust company of New York. Judgment was entered in favor of the trust company for \$4,225,333.33 and executors consented to the judgment.

Seven other claims aggregating \$281,233 were allowed by the court, the executors consenting thereto.

Careful investigation of court records in connection with settlement of estate reveals that it was Moffat's almost frantic efforts during his last days to retain his hold on the Moffat road that piled up such heavy obligations against him.

Careful study of records reveals that Moffat at the time of his death was facing financial calamities which threatened to sweep from his grasp the Moffat road and to wreck the First National bank.

MARQUIS OF STAFFORD MARRIED

Wedding of Duke of Sutherland's Son to Lady Butler Great Event in British Society.

London, April 11.—The biggest social event on the season's calendar took place today when Lady Eileen Gladys Butler, elder daughter of the earl of Lanesborough, and the marquis of Stafford, the duke of Sutherland's eldest son and heir, were married at St. Peter's church, Eaton Square. The bride, who is just twenty-one, was given away by her father, while the groom was attended by his brother, Lord Alastair Leveson-Gower. The church was crowded to the doors with the flower of English society. After the wedding ceremony a reception was held at Grosvenor House, lent for the occasion by the duke and duchess of Westminster. The honeymoon will be passed at Lilleshall and Dunrobin Castle, two of the seats owned by the duke of Sutherland.

The two plants will be consolidated, but both papers will be maintained. The Free Press will be issued Tuesdays and the Public Opinion Thursdays. Mr. Barnes will go to Topeka, where he will be with an insurance company.

Thirty See Officer Shot.

Butte, Mont., April 11.—Peter McDonald, a patrolman, was shot and dangerously wounded by robbers who held up a saloon. Thirty men who were in the place at the time were forced to kneel, facing the wall, while the four robbers robbed the safe. McDonald fired at the men as they fled and was shot down. The robbers took \$1,500.

Tried a Safe Eight Times.

Tulsa, Ok., April 11.—Eight charges of nitro-glycerin were used in an unsuccessful attempt to rob the safe in the Bank of Red Fork. The outer vault door was blown out, but the safe itself withstood the attacks. The robbers escaped.

THIS LADY'S GOOD APPETITE

Mrs. Hansen, in a Letter From Mobile, Tells How She Gained It.

Mobile, Ala.—"I suffered for seven years, with womanly trouble," writes Mrs. Sigurd Hansen in a letter from this city. "I felt weak and always had a headache and was always going to the doctor. At last I was operated on, and felt better, but soon I had the same trouble.

My husband asked me to try Cardul. I felt better after the first bottle, and now, I have a good appetite and sleep well. I feel fine, and the doctor tells me I am looking better than he ever saw me."

If you are sick and miserable, and suffer from any of the pains due to womanly trouble—try Cardul.

Cardul is successful because it is composed of ingredients that have been found to act curatively on the womanly constitution.

For more than fifty years, it has been used by women of all ages, with great success. Try it. Your druggist sells it.

MR. SCHENKEL DEAD WRITES OF MEXICO

PASSED AWAY TUESDAY AT HIS DAUGHTER'S HOME.

FUNERAL IN MARYVILLE

Went to St. James a Month Ago and While There Became Sick—Resident Here for 34 Years.

The funeral services of the late Ferdinand Schenkel, who died Tuesday night at St. James, Mo., at the home of his daughter, Mrs. N. D. Putnam, will be held at St. Mary's Catholic church in this city, Friday morning at 10 o'clock. The services will be conducted by the pastor, Rev. Father Anselm.

The body will arrive in Maryville Thursday evening on the 7:11 Wabash train and will be taken to the home of Mr. and Mrs. John Kirch, 305 East Thompson street, to await burial Friday morning.

Mr. Schenkel would have been 71 years old the 30th day of the coming May. He had been in good health until the death of his wife, which occurred fourteen months ago, and his children believe his death was caused by sorrow, for he has gradually declined since her death.

Mr. Schenkel was born in the province of Baden, Germany, at Everstein, on the Rhine. He remained there until he was 21 years old, when he came to America and settled at Polo, Ill. Forty-eight years ago last January he married Miss Eva Schardt of Freeport, Ill. They came to Nodaway county thirty-four years ago last January and settled on a farm seven miles west of Maryville, which was their home until Mrs. Schenkel's death.

Six children survive: Mrs. N. D. Putnam of St. James, Mo.; Mrs. Elitha Busby, south of Maryville; Mr. E. W. Schenkel, Louisiana, Mo.; J. F. Schenkel, Maryville; L. H. Schenkel and Mrs. O. E. Patton of Chicago.

Mr. Schenkel went to St. James about a month ago to visit his daughter, and while there was taken with his last illness.

It is expected that all his children will be here for the funeral services. Mr. and Mrs. O. E. Patton and their little daughter, Edith, arrived Thursday morning from Chicago.

MRS. CURTIS ALEXANDER TELLS OF MEXICAN REVOLUTION.

ARMED ALL THE TIME

Even When Calling or Attending a Social Affair, Says Mrs. Alexander in Letter.

"We gave a card party not long ago and our dining room table had to be used for the seventeen guns of our guests. Besides, we had ten guards in front of the house."

This rather thrilling little item appeared in a letter received Wednesday from Mrs. Curtis Alexander of San Luis Potosi, Mexico, by a Maryville friend, written under date of April 3. Mrs. Alexander is the daughter of Postmaster and Mrs. S. R. Beech of Maryville. She visited her parents for several weeks last summer and was an interesting and popular guest at several social events.

Mr. Alexander is manager of the smelter at San Luis Potosi for a New York company. The mining plant covers a wide area of land and is surrounded by a high, thick wall. He and Mrs. Alexander live in an old castle, which at one time was a fort in times gone by, when war was the rule in Mexico. The company has protection from the Mexican government for its plant. About a year ago Mrs. Alexander met Madero, who commended her for her bravery, and said he would protect her, for at that time she was the only American woman who had remained during a fresh outbreak of the revolutionists, and she now says that nothing on earth can harm her, "For has not Madero said he would protect me?"

None of the Mexican revolution has disturbed the people as far south as San Luis Potosi until recently, and some of the Americans there have refused to believe that there was much in the reports of the American newspapers, and Mrs. Alexander has kept her family at rest here regarding her safety by her cheerful, fearless letters. But she is becoming somewhat concerned, although she frequently speaks of the revolution with characteristic humor. Her letter goes on:

"Remember how your mother used to tell us stories of war times? And how many nights we sat big-eyed and breathless listening to her? She had such a manner of telling them. As I listened, little did I dream that some time I, too, would see a war. Just now the sound of the bugle is in my ears, but the tramp, tramp is not as our soldier boys go. It is any kind of

a stride that suits each one. It sounds mighty bad and looks horrid. They wear anything they want to, too. I wish Daddy could see them.

"We have been having great expectations the last few days of being 'taken,' also a strike amongst the men of the smelter—they want eight hours. Then when a little old rebel commander with about sixteen men notified the governor that he was going to come right away and take San Luis Potosi, the governor, one of Madero's personal friends, said: 'Come on, if you want to, and I'll feed you to my soldiers.' Then the governor sent ninety men out here to help guard the smelter. We have already about eighty-four of our own guards, that sure would run or turn against us as soon as anything would happen.

"But we are all ready, every woman and man of us, and there are seventeen Americans in all here, five married. All go armed all the time. If we go to call in the evening we carry our firearms and take two guards along. And besides, we are inclosed by a fifteen-foot wall, a yard thick, and all our houses are inside of that; then we have a big high lookout tower, where there is always a guard.

"It's all very queer until you get used to it, this revolution, and when there are no reports from the rebels we get terribly lonesome. But it is really funny to have a nice, quiet looking lady call on you, calmly lay her pistol on your center table and then begin to gossip. I am amusing myself by raising a lot of chickens in order to have something nice to give the rebels when they come to take us. I spend all my money so they won't get any of that. But I started to tell you that I sent to town the other day for some wheat for my chickens. The dealer sent me word that there was none, and he had no idea when there ever would be any wheat. That is the beginning of the end. These people will have to quit fighting and revolting or they will starve.

"These Mexicans, even the good families, have such queer ideas. Now the good families think it is a disgrace to go into the army. The governor is trying in every way to get recruits, but no one wants to. So whenever a peon gets drunk the next thing he knows he wakes up in the army. He has to go or be shot. And if not enough get drunk then the governor sends out men to get them drunk. That is why most of the men in the army are undrilled.

"I believe one hundred drilled United States soldiers could wipe this whole business off the map.

"The other day all the foreigners—Americans, Germans, French and Spanish—called an open meeting to decide what was best to be done in case things ceased to be a rumor and became a reality—what was best to do to protect ourselves. Of course, there were many rich Mexicans there, too. One of the Mexicans present, who has a big ranch and raises bulls to fight—he owns millions of acres of land, which, by the way, the rebels want to divide amongst themselves—when he heard an American suggest that each one arm himself and get on top of his house and shoot to kill, this rich Mexican, I say, got up with fire in his eye and great disgust and said very dramatically:

"We! We of the good families arm ourselves? No. That is the work of the peons and of servants. Not for us. I pay big taxes to this government, and if it is too weak to protect me, then I say the sooner we have American intervention the better." And he walked out of the meeting. There was astonished silence for a moment. Then some shouted "Bravo!" Others, "Die!"

"Of course, the newspapers have been so shut down upon that we can only depend on rumors. No one knows if the rebels are coming or waiting. But we are all ready. I don't believe the revolution would bother me if that bugle would only stop. I can't tell if I'm saying 'The rebels are coming' or 'Go to bed.' I've just been out on top of the house and nothing seems to be stirring, so I guess the bugle says 'Go to bed.' So I will, as I may have to get up any time in the night and grab my gun and run. But I have a pretty night gown.

"Our boy has gone to work for himself. He is in Pachuca and says everything is so quiet there that you would never know war was going on."

SOME VEGETABLE CURES.

Onions Furnish the Most Substantial Cure for Nervous Prostration and All Other Nerve Disorders.

Water cross is an excellent blood purifier.

Lettuce has a soothing effect on the nerves and is excellent for sufferers from insomnia.

Tomatoes are good for a torpid liver, but should be avoided by gouty people.

Spinach has great aperient qualities and is far better than medicine for sufferers from constipation. It is also excellent for kidney troubles.

Beet root is fattening and good for people who want to put on flesh. So are potatoes.

Parsnips possess the same virtues as sarsaparilla.

Apples, carrots and Brazil nuts are excellent for sufferers from constipation.

Apples and carrots also have a beneficial effect on gouty persons.

Raw carrots cure indigestion. When cooked they will cure asthma.

Celery contains sulphur and helps to ward off rheumatism. It is also a nerve tonic.

Dates are exceedingly nourishing and laxative.

The juice of grapes is laxative, but the skin and seeds are likely to cause constipation.

Bananas are beneficial to sufferers from chest complaints.

Onions furnish the most substantial cure for nervous prostration and all other nerve disorders; they have a soothing effect on consumptives, and are excellent for colds, coughs and scurvy. They have been known to cure la grippe and pneumonia. Onions also are preventatives of insomnia.

Cranberries serve as cures for malaria and erysipelas.

Parsley is an excellent aid to digestion; when eaten with a hearty meal it will prevent dyspepsia.

Strawberries and opions produce a creamy whiteness to the complexion.

Asparagus stimulates the kidneys, and by the exercise afforded them, strengthens them and thus becomes one of the most important kidney cures. Asparagus also causes perspiration, thereby cleansing the system of impurities.

Cabbage helps to purify the blood.

Dr. Q. A. R. Holton mentions a cure effected by permitting the patient, who was suffering from bilious colitis, to drink buttermilk when he craved it.—National Food Magazine.

WHAT TIME IS IT?

No Need to Ask—Just Look at Crane's New Chronometer and See for Yourself.

H. T. Crane has just put in his show window for the benefit of the general public a very fine ship chronometer, manufactured by the Waltham Watch company. The chronometer is hung in a case in which it is perfectly balanced and no change of position in the least affects its time keeping qualities. So accurate is its adjustment that it is guaranteed to vary not more than one and a half seconds in a week's time. It will be kept in the window where it can be seen at a glance just what the correct time is. It is very liable to put the reputation of the court house clock to the bad.

Penelope Club Met.

The Penelope club met Wednesday afternoon with Mrs. N. F. Hopper, on West Second street. There was not a large attendance of the members, because some could not resist the first party of the season at the Elks club. A splendid afternoon was spent, however, in an informal social way. Light refreshments were served. The members present were Mrs. Hopper, Mrs. John Herron, Mrs. John Price, Mrs. Anna Frankum, Mrs. J. D. Ford, Mrs. LeRoy Johnson, Mrs. Frank Bolin, Mrs. G. A. VanSteenbergh, Mrs. J. F. Cook and Miss Dessie Gault.

Shakespeareans With Mrs. Craig.

The Shakespearean department of the Twentieth Century club met at the home of Mrs. Anderson Craig Tuesday afternoon. Mrs. O. C. Hanna gave a general outline of the third act of "The Tempest," and roll call was responded to by quotations from the same act. The symposium of five miscellaneous questions was conducted by Mrs. M. G. Tate and current events were given by Mrs. Ferdinand Townsend. The word drill was given by Mrs. D. J. Thomas, and parliamentary law presented by Mrs. E. G. Orrear. The department then convened in open session, when the hostess served a delicious white luncheon. Toasts followed, the hostess introducing each club member with a pun on her name, and all responded handsomely. There were nine visitors, Mrs. J. R. Brink, Mrs. Gallatin Craig, Mrs. G. L. Willey, Mrs. N. C. Covey, Mrs. George P. Wright, Mrs. F. G. Shoemaker, Mrs. R. L. McDougal, Miss Eva Rittenour and Mrs. M. J. Honnold. The next meeting of the Shakespeareans will be held with Mrs. Ferdinand Townsend, Tuesday, April 30.

First Party After Lent.

The party given at the Elks club Wednesday afternoon by Mrs. Conrad Yehle and her sisters, Miss Lenore Schumacher and Miss Rose Schumacher, proved a delightful opening for the spring social season, and the sight of the beautifully dressed company on its way to and from the party renewed the conviction in the minds of many who saw them that Maryville has the loveliest maids and matrons in the country. The guests were greeted at the door by Mrs. Luther Forsyth, and received by their hostesses in the parlors. Miss Della Grems directed them to the tea rooms, where Mrs. P. P. Robinson, assisted by Miss Esther Shoemaker, Miss Cecil Benight, Miss Mae Corwin, Miss Kattie Grems and Miss Katharine Yehle served punch. The color scheme was lavender and white. Lavender candles in crystal holders lighted the table. The table covering was of cluny lace and over it were sprays of pressed maiden hair ferns from Green Bay, Wis., which, with lavender and white sweet peas, made an exquisite table, with its cut glass and china service in the same colors. Miss Anna Walker of Burlington Junction directed the guests to the ball room, where they were seated at the tables for cards and dominoes by Mrs. S. G. Gilliam and Miss Teresa Yehle. The game prize at cards was won by Miss Mabel Todd, and the domino game prize by Mrs. W. A. Tindall.

While a four-course luncheon was served, all in lavender and white, a musical program was given by Miss Besse Scott, Miss Myrtle Sheldon and Miss Hilda Lahr.

Miss Scott's songs were "Rose in the Bud," by Dorothy Foster, and "Love, I Have Won and Held You," by London Ronald. Miss Sheldon sang D'Hardelot's "Because" and a Scotch song, "My Ain Folk." Miss Lahr gave several fine piano numbers.

The out-of-town guests were Mrs. Jesse I. Roberts of St. Joseph, who

is visiting Mrs. Frank G. Shoemaker; Mrs. Agatha Branger of Waterloo, Ia., who is visiting her brother-in-law and his wife, Mr. and Mrs. R. S. Branger; Mrs. Jesse F. Robertson and Miss Anna Walker of Burlington Junction.

The Nerve of Her!

Not long ago a woman reporter was busily engaged in scribbling her "copy" on a street car on her way to the office from the scene of her work. She was listing a number of the people who had been present when she was surprised to have a perfect stranger sitting in the seat with her tap her on the shoulder, beg her pardon, and tell her that one of the names she was writing was misspelled.

"I have often found people reading over my shoulder in the street car," the reporter said in telling of it, "but that was the first one who has had the impudence to comment to me upon what she read."

Delicacy.

Once there was a man who thought it was foolish to advertise. He opened a shop in a side street and filled it with first class goods, intending to let them speak for themselves. After he had waited for several days a customer entered and paid 60 cents for an article that he happened to need. The man who did not believe in advertising expected the thing he had sold to prove so satisfactory that the purchaser would return for more things that he might wish to purchase. But the customer did not return. One day, many months after his purchase had been made, he happened to be passing through the street in which the little shop was located. A thin, haggard person stumbled out of the door of the shop and stopped him.

"How is it," asked the man who did not believe in advertising, "that you have never come back to buy any of my wares? Wasn't the thing I sold you worth the price you paid for it?"

"I don't know," replied the other man, "may be it was; but I somehow got the idea that you hated to part with your goods and I didn't want to give you pain."

This teaches us that there may be delicacy on both sides.

AMERICAN WAS SHOT BY REBELS

Thomas Fountain Was Gun Captain
Under Villa at Parral.

WAS FIRED UPON FROM BEHIND

Consul Letcher at Chihuahua Sent
Gen. Salazar Appeal From Wash-
ington to Stay Execution,
Without Avail.

El Paso, Tex., April 11.—An Ameri-
can newspaper man just returned
from Parral with 184 American and
other foreign refugees brought news
of the execution of Thomas Fountain
of Las Cruces, N. M., by the rebels.

Fountain was captain of a federal
gun under Gen. Pancho Villa. When
Villa retreated last Thursday night
Fountain removed certain parts of the
piece and concealed himself in a
private residence.

The American was driven by thirst
and hunger to reveal his presence
Sunday after 72 hours of self imposed
torment.

He was armed with a revolver, but
made no resistance. Monday he was
compelled to show the rebels where
he had secreted the missing parts of
his rapid firer, was tried by court-
martial and condemned to death, ap-
parently for having disabled the gun.

American Consul Letcher at Chi-
huahua sent to Gen. Salazar what is
believed to have been an appeal from
Washington that his life be spared.
In delivering the missive to a messen-
ger the consul remarked: "That is
the last resort."

Killed Under "Law of Flight."
In Mexico they have recourse to
what is known as the "law of flight"
under which a prisoner who has been
condemned is allowed his freedom
within certain limits. The prisoner
knows that his fate is sealed. Even
if he does not walk a step, from some
unexpected quarter the fatal bullet
will come, and the report will be made
that he was shot while "in flight."

It was thus in Fountain's case.
When his body was brought in it con-
tained four bullet wounds, made by
shots fired from behind.

Seized American Arms.
Washington, April 11.—Anxiety was
aroused in the state department by
dispatches from Mexico that the arms
sent for defense of Americans were
being confiscated and, that rioting and
plundering had suddenly broken out
all along the state line.

As guns of almost any make are
selling in Mexico at \$100 apiece, it
is feared the whole consignment of guns
may be taken from the trains by
rebels.

KEARNEY'S BODY TO ARLINGTON

Remains of Civil War General Re-
moved From Family Vault for
Reinterment.

New York, April 11.—The remains
of Gen. Philip Kearney, famous sol-
dier of the Civil war, lie in state
day in the New York city hall. To-
morrow they will be taken to Wash-
ington for interment in the Arlington
national cemetery, where a monument
will be erected through a \$10,000
appropriation of the New Jersey
legislature.

The bones of the hero were removed
this morning from the family vault in
Trinity churchyard and the old casket
was encased in a new one. The fu-
neral service was read by Rev. Dr.
Manning, rector of Trinity, and the
casket was then placed on a caisson
and, escorted by detachments of in-
fantry and cavalry, was taken to the
city hall. There Gen. Daniel Sickles,
the only surviving division comman-
der of the war, delivered an oration.
General Kearney was killed while recon-
noitering within the Confederate
lines near Chantilly, Va., on Septem-
ber 1, 1862.

BOY SCOUTS MAKING TROUBLE

LEADERS FIND IT NECESSARY TO
PROHIBIT FIREARMS.

Fatal Shooting of New York Boy
Shows Danger of Movement so
Popular Among Youth.

New York, April 11.—The Boy
Scouts of America must not carry
firearms and any boy in a scout uni-
form who carries a revolver or a rifle
is disobeying the instructions of the
leaders of that organization. James
E. West, chief scout executive of the
Boy Scouts of America, said that he
has been authorized by the executive
board of his organization to take such
steps as may be necessary to make it
clear to the public that the real scout
movement is not military and is dis-
tinctly opposed to having the boys
carry firearms.

For many months the scout leaders
have been sending out word to the
scoutmasters to avoid military drills
and to use every measure possible to
prevent the boys from carrying fire-
arms. The popularity of the scout
movement, however, has led many
men and thousands of boys to imi-
tate the boy Scouts of America.

There are organizations of boy
scouts who do carry arms and the
fatal shooting of Henry Luckhardt, 9
years, old, by Russell Maitland Jar-
vis, a boy scout 12 years old, in New
York City recently, has convinced the
leaders of the Boy Scouts of America
that they have an important duty to
make clear to the public and espec-
ially to parents that the Boy Scouts
of America do not carry firearms.

PANAMA VOLCANO IS IN ERUPTION

Highest of Peaks Unexpectedly
Burst Into Flame.

INDIAN VILLAGES SWEEP AWAY

Story of Disaster Brought by Steamer
Captain—Thousands Killed Be-
fore They Had Chance to
Escape.

Mobile, Ala., April 11.—Thousands
have been killed and whole Indian
villages have been swept away by the
eruption of Chiriqui Peak near Bocas
del Toro, Panama, according to a story
brought here by Capt. Olsvik of the
United States steamer, Fort Morgan,
which has just arrived.

Capt. Olsvik says the eruption oc-
curred April 5, early in the morn-
ing, while the Fort Morgan was
berthed near Bocas del Toro, and
that he witnessed flames shooting
from the peak. Reports of the large
casualty list were brought from the
immediate scene to Bocas del Toro by
refugees who escaped the onrushing
lava. He says he watched the erup-
tion April 5 until he put to sea.

Even far out on the gulf Capt.
Olsvik says he saw evidence of the
disturbed elements. The sea was
affected in many places and the air
was filled with smoke and dust far
out into the gulf.

Capt. Olsvik says inhabitants of
Bocas del Toro were panic stricken,
believing that place might be over-
run with the lava that was belching
forth from the peak.

Chiriqui peak, as far as is known,
never has shown volcanic activity and
the sudden bursting of fire and lava
from the crest took inhabitants by
surprise.

Story of Spectacle.
In describing the eruption Capt.
Olsvik said:

"The Fort Morgan was berthed at
the Almirante wharf, about 14 miles
from Bocas del Toro, on the morning
of April 5, loading bananas, when
about 4 o'clock the eastern sky
blazed forth and a great rumbling was
heard. Looking in that direction, I
saw great columns of fire shooting
high.

"I learned before leaving that the
third of a row of mountain peaks situ-
ated about a mile from us had burst
into flames.

Vessel Caught in Current.
"Soon after the volcano was seen
the Fort Morgan was caught by a
great current and tore at her moor-
ings. When we got into the open sea
great rocks were sticking out of the
water in places where before we had
navigated the vessel."

Capt. Olsvik is well known in Gulf
and Caribbean ports, having sailed in
these waters many years.

STRIKE OF I. W. W. IS WEAKENING

Work Resumed on Various Sections
of Canadian Northern Railway
Under Police Guard.

Yale, B. C., April 11.—There is ac-
tivity on various sections of the
Canadian Northern grade north of
Kamloops, but the great majority of
the striking Industrial Workers of the
World are still idling about the strike
camps. Station men have returned to
work where they can get along with-
out outside assistance. The station
men is a small contractor but he must
pay the wage the larger contractor
sets.

The provincial police have control
of the situation and have 60 men scat-
tered along the grade. The camps
where work is going on are under
guard.

AVIATORS ARE TAKING WARNING

Alarmed by Accidents, Both Lee
Hammond and Miss Moisant
Quit Dangerous Game.

Mineola, N. Y., April 11.—Lee Ham-
mond, an aviator, has permanently
quit the flying game at the request
of his fiancée, Miss May Andrews, of
this place, whom he met on the avia-
tion field here. The marriage will
take place next week and the couple
will leave at once for Chicago, where
Mr. Hammond has secured a position
with a banking house.

Wichita Falls, Tex., April 11.—After
an exhibition flight here, Miss Matilda
Moisant, probably the most noted
woman aviator in the country, an-
nounced her retirement from the fly-
ing game.

Woman on Long Walk.

New York, April 11.—Beginning a
1,000-mile walk to Chicago on a diet
of raw food, Mrs. David Beach left the
New York Globe office without break-
fast, and expects to dispense with the
morning meal on the whole trip and
will eat nothing but raw food. Mrs.
Beach was confident she would be at
Chicago by June 1.

Playgrounds at Hannibal.

Hannibal, Mo., April 11.—The suc-
cessful termination of efforts now be-
ing made here will result in Hannibal
having its first playgrounds. A T.
Campbell of Chicago, has placed a
proposition before the commercial
club which it is expected will be ac-
cepted.

EXCITED OVER PLATINUM FIND

Opening of Indian Land Brings News of Great Discovery.

MILL MACHINERY IS SHIPPED

Metal Twice as Valuable as Gold—Mining Operations Already Begun at Mountain Park, Oklahoma.

Guthrie, Ok., April 11.—With the opening at the land office here of the Navajo irrigation site of 60 sections of land near Mountain Park in southwestern Oklahoma came the announcement that platinum had been discovered within 12 miles of this land and active mining operations are now in progress there. This will be the last opening of land to settlement in Oklahoma. It was staked off by claimants March 11, but no filings were permitted until now.

The federal government intended to build an immense irrigation plant there. Later it was found not feasible. This is the only known platinum deposit in the United States. The ore assays \$56 platinum a ton, with traces also of gold and silver. Platinum is quoted at \$43 an ounce, twice as valuable as gold. Heretofore practically all the platinum used in this country is mined in the Ural mountains, Russia. Denver and Pueblo capitalists are erecting a mill near Mountain Park and shipping in the machinery to equip it. Miners who were here to file state that great excitement exists there and that a rush of prospectors is expected any day.

The Wichita mountain country adjoining is full of former Black Hill and Rocky Mountain prospectors now. The federal government has segregated 480 acres of land near Roosevelt James D. Hutton, the first man to file, is secretary of the Oklahoma Mining congress and has just issued a call for the annual meeting to be held at Mountain Park on July 4, at which time a president and other officers will be elected.

MOFFAT HEIRS TO GET LITTLE

WIDELY HERALDED ESTATE WILL NET BUT \$750,000.

Records Show Millionaire Railroad Builder Was Facing Financial Embarrassment.

Denver, April 11.—That David H. Moffat, Colorado pioneer, railroad builder, national banker and millionaire, was on the verge of acute financial embarrassment at the time of his death, is the startling revelation that has just been made public here.

It is reported that after the payment of debts the widely heralded Moffat estate has shrunk to \$750,000, which means that many bequests cannot be fulfilled, as they aggregate millions.

Claims have been filed against the Moffat estate aggregating \$4,500,566, whereupon Judge John R. Dixon removed the lid from the records touching the estate which have been suppressed for a year.

The largest claim presented was by the Equitable Trust company of New York. Judgment was entered in favor of the trust company for \$4,225,333.33 and executors consented to the judgment.

Seven other claims aggregating \$281,233 were allowed by the court, the executors consenting thereto.

Careful investigation of court records in connection with settlement of estate reveals that it was Moffat's almost frantic efforts during his last days to retain his hold on the Moffat road that piled up such heavy obligations against him.

Careful study of records reveals that Moffat at the time of his death was facing financial calamities which threatened to sweep from his grasp the Moffat road and to wreck the First National bank.

The bride, who is just twenty-one, was given away by her father, while the groom was attended by his brother, Lord Alastair Leveson-Gower. The church was crowded to the doors with the flower of English society. After the wedding ceremony a reception was held at Grosvenor House, lent for the occasion by the duke and duchess of Westminster. The honeymoon will be passed at Lillieshall and Dunrobin Castle, two of the seats owned by the duke of Sutherland.

The robbers took \$1,500.

THIS LADY'S GOOD APPETITE

Mrs. Hansen, in a Letter From Mobile, Tells How She Gained It.

Mobile, Ala.—"I suffered for seven years, with womanly trouble," writes Mrs. Sigurd Hansen in a letter from this city. "I felt weak and always had a headache and was always going to the doctor. At last I was operated on, and felt better, but soon I had the same trouble.

My husband asked me to try Cardui. I felt better after the first bottle, and now, I have a good appetite and sleep well. I feel fine, and the doctor tells me I am looking better than he ever saw me."

If you are sick and miserable, and suffer from any of the pains due to womanly trouble—try Cardui.

Cardui is successful because it is composed of ingredients that have been found to act curatively on the womanly constitution.

For more than fifty years, it has been used by women of all ages, with great success. Try it. Your druggist sells it.
